CONTENTS

ORIGINAL STUDIES

The Outcome of Patients with Cultured Pathogens at Time of Nonunion Surgery  David P. Taormina et al .......................................................... 1
Pulsed electric fields reduce bacterial attachment to stainless steel plates  Ernesto Muñoz-Mahamud et al .......................................................... 11
Diagnostic pitfalls in the differentiation between pyoderma gangrenosum and necrotizing fasciitis, Yves Fortems et al .......................................................... 17
Treatment of chronic osteomyelitis with antibiotic-loaded bone void filler systems: an experience with hydroxyapatites calcium-sulfate biomaterials, Jacopo Visani et al .......................................................... 25
Comparison of fine needle aspiration and core needle biopsy in the diagnosis of bone tumours, Pedro Filipe Cardoso et al .......................................................... 30
Vascularized fibular autograft as salvage technique in failure of allograft intercalary reconstructions after tumor resections Biazzo A, et al .......................................................... 38
Arthroscopic treatment of greater tuberosity fractures: retrospective review of clinical and radio logical outcomes, Sungwook Choi et al .......................................................... 47
Systematic review and Meta-analysis on acromioplasty in arthroscopic repair of full-thickness rotator cuff tears, Zhengyu Sun et al .......................................................... 54
Anatomically based classification of medial clavicle fractures, Alexander Van Tonge et al .......................................................... 62
Association between the capitato-triquetrum distance and carpal collapse in static scapholunate instability Anastasios Dimitriadis et al .......................................................... 68
Spontaneous posterior shoulder dislocation as the first symptom of a Charcot arthropathy, Jacques Hernigou et al .......................................................... 73
Sonography-guided arthroscopic excision is more effective for treating volar wrist ganglion than dorsal wrist ganglion, Michiro Yamamoto et al .......................................................... 78
Outcomes of primary surgical repair of zone 2 digital nerve injury, Erdinç Acar et al .......................................................... 84
Evaluation of Moebius syndrome with hand manifestations, Bekir Eray Kilinc et al .......................................................... 94
Internal fixation with Kirschner wires is as efficient as rigid screw fixation in scaphoid fracture: long-term functional outcome, Ziping Jiang et al .......................................................... 99
Vertebroplasty (PVP) is effective in the treatment of painful vertebral hemangiomas, Agnieszka Saracen et al .......................................................... 105
Comparison of two temporary fixation techniques for the treatment of type II odontoid fracture Lin-nan Wang et al .......................................................... 108
