CONTENTS

ORIGINAL STUDIES

Internal fixation of displaced fractures of the proximal humerus with a locked intramedullary blade nail. Awaiz Ahmed et al. ................................................................. 1
Total hip arthroplasty using a modular “short-stem” femoral prosthesis vs. a standard prosthesis: a five-year follow-up study. Ramy Belhouane et al. ............................. 9
Radiohamate impingement after proximal row carpectomy ‘Radiohamate impingement PRC’. Pieter Caekebek et al. ............................................................... 19
Temporary screw epiphysiodesis for ankle valgus in children. Stefan Gaukel et al. ...................... 37
Alternating levels versus all levels mini-plate fixation in open door cervical laminoplasty for treatment of degenerative cervical myelopathy. Shaoqi He et al. ....................... 45
Iliac screws in multi-level degenerative spine treated via long constructs crossing the lumbosacral junction. Mohammed Zayan Ibrahim et al. ................................. 61
Neurology in metal-on-metal hip arthroplasty a case of suspected prosthetic hip-associated cobalt toxicity. Jetse Jelsma et al. ...................................................... 67
Breakage of volar locking plate system for distal radius fractures. Syohei Kawanishi et al. ......... 71
Irrigation and debridement for periprosthetic hip infections: a systematic review. Eo Jin Kim et al. Factors associated with the prevalence of incidental disease in the upper extremity. Sjoerd Th. Meijer et al. ........................................................................ 87
Evaluation of reduction quality with magnetic resonance imaging after closed or open reduction of the hip in the treatment of developmental dysplasia of the hip. Vugar Nabiyev et al. ......................................................... 95
Outcomes of dorsal plating for selected distal radius fractures. Nader Paksima et al. .................. 101
Efficacy and safety of Aspirin plus intermittent pneumatic compression device as thromboprophylaxis after total hip arthroplasty: prospective randomized control trial. Sushil Paudel et al. “Less is More” for low grade lumbar spondylolytic spondylolisthesis. Arun-Kumar Kaliya-Perumal et al. .................................................................................. 109
Osteosynthesis in Schatzker V and VI tibial plateau fractures in patients older than 65 years — one or two plates? Alfonso Vaquero-Picado et al. ................................ 117
Differences in outcomes according to the primary treatment options chosen by patients with carpal tunnel syndrome and negative neuropsychological studies: Conservative versus operative treatment. Do we need neuropsychological studies? Olga D. Savvidou et al. ................................................................. 133
The Acromion Index. Reliability in radiographic and magnetic resonance imaging. Kristian Nikolaus Schneider et al. ................................................................. 139
Sesamoid arthrodesis for moderate metacarpophalangeal hyperextension associated with trapezio-metacarpal osteoarthritis treated by total arthroplasty. Clarisa Simón-Pérez et al. 145
Interobserver reliability of foot bimalleolar angle in different pirani scores for the treatment of congenital talipes equino varus. Neerav Anand Singh et al. ...................................... 149
Infection risk analysis of orthopaedic surgical team. Double glove cuff interface moisture. Jonathan Spanyer et al. ................................................................. 155
Comparison of corticosteroid injection and ozone injection for relief of pain in chronic lateral epicondylitis. R. Gökhan Ulusoy et al. .................................................... 161
Air arthrograms for intra-articular injections of the hip. A. Volpin et al. ................................. 170

CONTENTS

Two-year results of stemless total shoulder arthroplasty in patients with primary osteoarthritis. Thomas Westphal et al. .......................................................... 173
A prospective randomized study comparing the direct anterior approach in the lateral decubitus posterolateral approach for total hip arthroplasty. Hao-ran Yu et al. ......................... 181
A comparative study of four methods in treatment of pin tract infection in children supracondylar humerus fractures. Jun Zhang et al. ................................................................. 191
Outcomes of carpal tunnel surgery in patients with and without medical comorbidities with special attention to quality of life Andrzej Zyluk et al. ......................................................... 197
