## ORIGINAL STUDIES

<i>Is the level of vitamin D deficiency correlated with the severity and bilaterality in slipped capital femoral epiphysis? A case series study, Shady Elbeshry et al. . . . .</i>	217
<i>Long-term outcome of extraarticular subtalar arthrodesis in children with cerebral palsy using modified Grice technique, Jiri Jochymek, Tereza Peterkova . . . . .</i>	223
<i>Assessment of early Achilles tenotomy in the newborn idiopathic pes equinovarus, Ersin Mutlu et al. . . . .</i>	231
<i>Reliability of radiological measurements and treatment recommendations of displaced paediatric humeral medial epicondyle fractures, Christoph Arneitz et al. . . . .</i>	237
<i>Pediatric distal humeral supracondylar fracture – achievement of optimal pinning configuration, Han Hong Chong, Assad Qureshi . . . . .</i>	245
<i>Quantitative gait analysis in children with osteogenesis imperfecta: relationship between gait deviations and clinical features, Solange De Wouters et al. . . . .</i>	255
<i>Open reduction in treatment of neglected elbow dislocation in children, Ahmed El Mouloua et al. . . . .</i>	263
<i>The management of orthopedic trauma surgery during the COVID-19 pandemic in Turkey, Ortaç Guran et al. . . . .</i>	269
<i>The effect of transitional vertebrae and spina bifida occulta on disc herniation, disc degeneration, and end-plate changes in pediatric patients with low back pain, Ozge Gulsum Illeez et al. . . . .</i>	275
<i>Zero-profile implant versus integrated cage-plate implant in treatment of single level cervical disc disease, Mohammed Zayan Ibrahim et al. . . . .</i>	285
<i>Impact of job characteristics on return-to-work interval following arthroscopic partial meniscectomy, Jef Van Doninck et al. . . . .</i>	293
<i>The survivorship of revision total hip replacement with severe proximal bone deficiency using 15 modular taper fluted prosthesis, Siddharth Govilkar et al. . . . .</i>	303
<i>Hip fracture specialists facilitate low-dose spinal anaesthesia in fractured neck of femur surgery, David E. Brooks et al. . . . .</i>	311
<i>Total knee arthroplasty for acute tibial plateau fractures: a survey amongst 68 Dutch orthopaedic surgeons, Mees K. Hesmerg et al. . . . .</i>	319
<i>Mid-term outcomes of posterior capsular release for fixed flexed deformity after total knee arthroplasty, Theofylaktos Kyriakidis et al. . . . .</i>	329
<i>The addition of oral Tranexamic acid to knee arthroplasty patients does not further improve blood loss: a double blinded randomized control trial, Ciaran McDonald et al. . . . .</i>	335
<i>Tibial cancellous bone auto-grafting for medial open-wedge high tibial osteotomy: bone void filling with tissue harvested from osteotomized medullary canal, Cumhuriyet Kesemenli et al. . . . .</i>	342
<i>Quadriceps tendon vs hamstring autograft in primary ACL reconstruction – a comparative study with minimum two-year follow-up, Maria Victoria Pomenta Bastidas et al. . . . .</i>	347
<i>Are running stitches needed in DT4 Single Anteromedial Bundle Biological Augmentation transplant preparation ?, Maxime Huard et al. . . . .</i>	355
<i>Comparison of the WALANT and the PFNB techniques in the surgical treatment of unimalleolar fractures: a prospective study, Ceyhan Çağlar et al. . . . .</i>	359

<i>Non-contact wound area assessment by digital planimetry using photo editing software, Pradyumna Krishna Majumdar et al. ....</i>	368
<i>Instability after reverse total shoulder arthroplasty: risk factors and how to avoid them, Lorena Pena et al. ....</i>	372
<i>Radial head fractures: a quantitative analysis, Silvio Lampaert et al. ....</i>	380
<i>The prevalence of frozen shoulder in patients with limited Dupuytren disease, Maarten Van Nuffel et al. ....</i>	387
<i>Radial tuberosity anatomy in intramedullar repair of distal biceps tendon ruptures. A radiological study, Laurens Van Melkebeke et al. ....</i>	392
<i>Treatment practice for Dupuytren disease in Belgium before 2020: results from an online survey, Maarten Van Nuffel et al. ....</i>	399
<i>Outcome of the MatOrtho arthroplasty for PIP osteoarthritis with a minimum follow-up of two years, Kathleen Janssens, Frederik Verstreken ....</i>	392
